

# INTERNAL CLEANROOM BOLLARDS

# Internal Cleanroom Bollard

**Kent Stainless Internal Cleanroom Bollard** is ideal for Life Science projects - Pharmaceutical Factories, Laboratories, Hospitals. The standard 4" dia version stands at 40" high with hidden fixings. It's grade 304/316 Stainless Steel material along with its no. 6 satin finish makes it super hygienic.

American projects are mostly made in the USA and made to imperial measures - typically 40" high. This same bollard supplied to European projects would be supplied as a metric measure 1000mm high - rather than an exact conversion of 40" to 1016mm. Approval drawings for each project will be supplied in imperial or in metric as requested and can be customised.

## FEATURES

- 11GA (3mm) thick steel
- ASTM No. 6 Satin Finish (USA)
- EN10088 320 Grit Satin Finish (EU)
- Hidden fixings
- Grade 304L or 316L Stainless Steel
- Fixings included

## INDUSTRIES

- Laboratories
- Pharmaceutical
- Hospitals
- Medical Facilities
- Biomedical

Bollard is fixed below ground using a nylon sleeve, chemical capsule & threaded stud
